

General Guidelines Cleaning your furniture fabric

- Regularly clean your fabric by vacuuming or light brushing.
- Always check code before deciding which cleaning products to use.
- Test cleaning product in an inconspicuous area first to guard against color bleeding or fabric shrinkage.
- Follow all directions and advice.
- Call a professional when your upholstery needs overall cleaning.

W. (water based cleaners)	S. (solvent or dry cleaning products)	W-S. (solvent and/or water based cleaners)	X. (vacuum or brush only)
<p>To prevent overall soiling, frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean using the foam only from a water-based cleaning agent such as a mild detergent or non-solvent upholstery shampoo. Apply foam with a soft rag or brush in a circular motion. Vacuum when dry. Always pretest a small area before proceeding.</p>	<p>To prevent overall soiling, frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean using a mild water-free solvent or dry cleaning product. Clean only in a well ventilated room and avoid any product containing carbon tetrachloride which is highly toxic. Pretest small area before proceeding.</p>	<p>To prevent overall soiling, frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean with a mild solvent, an upholstery shampoo or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well ventilated room. With either method, pretest a small area before proceeding.</p>	<p>Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust and grime. Water based foam cleaners or solvent based cleaning agents of any kind may cause excessive shrinking, staining, or distortion of the surface pile and therefore should not be used.</p>
